## Features

- $30^{\circ}$ angle seat design
- Designed for use with PB or D Series Metal Rupture Disks.
- Angle seat positions disk between the inlet and outlet holder to ensure proper installation
- Refer to the back of this bulletin for available holder mounting configurations
- Materials of construction: Carbon steel and 304SS or 316SS. Other materials available upon request
- Sizes $1 / 2^{\prime \prime}$ thru $24^{\prime \prime}$ diameters
- Compatible with standard ASME B16.5 Class Ratings
- Stainless steel safety designed side clips are standard, allowing for pre-assembly of disk into holder
- Permanently attached stainless steel nameplates are standard. Nameplates indicate flow direction and provide visual verification that holder assembly is properly oriented in the piping system
- Available options include: gauge tap; nipple and tee; excess flow valve; pressure gauge; J-hook; special facings and coatings
